

~~CONFIDENTIAL~~

OIT-0439-87

9 July 1987

MEMORANDUM FOR: Deputy Director for Administration

FROM: Edward J. Maloney
Director of Information Technology

SUBJECT: Weekly Report for Week Ending 10 July 1987

25X1 1. The DCI Security Staff has reported that the DCI is not
satisfied with the [] mobile telephone in his vehicle.
OIT personnel are investigating various options for temporarily
25X1 improving the mobile telephone service until new equipment becomes
available. []

2. Delivery 3.0 software was successfully delivered to the
Support for the Analysts' File Environment (SAFE) system for DI
analysts on 7 July 1987. This software replaces the Delivery 2
software which has been operational since January 1986. In
addition to enhancing the efficiency of the system for the DI
analysts, this change provides an underlying system on which
significant additional functions can be added during the next
several years. Creation of the Delivery 3.0 software involved
25X1 more than 100 computer professionals working over a period of more
than one year. []

25X1 3. During the afternoon of 1 July, the fiber optic cable
carrying message traffic between [] and the
Headquarters Building was cut by workmen conducting soil drilling
25X1 operations for the [] building owner. Technical personnel
needed nearly six hours to repair the damage and restore message
25X1 traffic. []

4. OIT computer programmers have produced an interim
statement for Agency participants in the Federal Employees
Retirement System (FERS) Thrift Plan. This project was
25X1 accomplished working with minimal specifications and under an
extraordinarily tight schedule. []

25X1 [] []
